

W. Thomas Boyce, MD

- Developmental pediatrician; husband of Jill for nearly 40 years; father of two children: 33 year old theater designer Andrew and 31 year old nursing student Amy
- BC Leadership Chair in Child Development at the University of British Columbia
- Co-Director of the Child and Brain Development Program of the Canadian Institute for Advanced Research
- Member of Institute of Medicine and Board on Children, Youth and Families
- Studies how psychological stress and neurobiological reactivity to aversive social conditions interact to generate disorders of both physical and mental health in childhood populations, especially those from disadvantaged communities
