Our Foundation

The DUDES Club “way of being” is about connection. A healthy man is connected to:

- Himself
- His physical and mental wellbeing
- His family
- The land
- His culture
- His community
- His spirituality / ancestors

Many men have been disconnected from these important anchors in their lives, and DUDES Club aims to restore this balance and connection.
“There are different ways of being a man. In our society, there are these very strong requirements of masculinity. We are trying to break down those rigid walls and have guys connect on a much broader level. It’s ok to take off your armour.

- Dr. Paul Gross, DUDES Club Founder and Medical Director
Core Principles

Mission

To facilitate a participant-led community for men's wellness with local activity-based clubs that prioritize supportive relationships, engagement in healthcare, and indigenous worldviews.

Vision

A renewed role for men* supporting each other and their families in building wellness and strong communities.

The Three Pillars

TO BUILD:
- solidarity,
- brotherhood,
- trust, and
- positive role models together with men.

TO PROMOTE:
- men’s health through accessible education, dialogue, and health screening opportunities.

TO ENABLE:
- men to regain a sense of pride, purpose and fulfillment in their life.
Recipe for Success

- Cultural Activities

“It’s part of the healing journey. When we get together, the DUDES feel so safe, they start talking about their past lives, and it all starts coming out.”

- Sandy Lambert, DUDES Club Elder
“In Indigenous contexts, it's a part of every day life to live in community. That is how people survived.”

- Dr. Vicki Smye, Faculty of Health Sciences, Ontario Institute of Technology
“You can’t have healthy communities or healthy families without healthy men.”

- Anthony, DUDE
“We’re not political, we’re not religious… we are DUDES, together. In these current times, it’s not easy to be a man. What’s helping me is having the closeness of other people.

- Steve “Pops” Monds,
Smithers DUDES Club Elder
“Being in the city I have lost all connection to nature. The calmness is waking something up in me.”

- Derek, DUDE
What makes DUDES unique

- Sustained Presence in the DTES since 2010, across BC since 2014
- Effective Public/Private partnership model established with FNHA, PHSA, and in discussions with Fraser Health, Northern Health, VCH, and other provincial health authorities
- Strong Social Capital, especially amongst indigenous men, especially ages 40-60
- Men are willing to be “community health workers”
- Supportive relationships with the most isolated and vulnerable men
- Lived experience
- Emerging cohort of local Indigenous Facilitators, Role Models & Drivers of the work
- Safety and trust
- Relationships
- Culture
“Leave your Armour at the Door”
 “No Judgement”
